*Dear Cattle Producer,*

The Iowa Beef Expo is always an exciting time if you enjoy great cattle and great cattle people. If you are unfamiliar with this event, it will showcase 1000+ head of cattle from all breeds during the week of February 14th. 2010 marks the 34th anniversary of the Iowa Beef Expo and is also the 34th annual Red Angus Classic Auction, making it the longest running state Red Angus Auction in the United States!

The quality of the Red Angus cattle offered at the Iowa Beef Expo is truly exceptional, with some of the nation's top producers selling their genetics through this event. Many national winning animals and their descendents have come through this auction ring, but more importantly, some of the best pasture and production cattle are graduates of the Iowa Beef Expo. If you have never been to Des Moines and the Iowa Beef Expo, I highly encourage you to attend. If you cannot make the trip, please join us online at: [LiveAuctions.TV](http://LiveAuctions.TV) and watch and bid on your own computer.

Whether you are in search of your next show heifer, a herd bull or a future donor cow, the 34th annual Iowa Beef Expo is the place to be. These cattle will be halter broke and ready to take on into the show world if you desire. Again, I can't emphasize enough the caliber of Red Angus genetics that are offered in this event. If you cannot attend and would like to discuss any of the cattle in this offering, please feel free to give me or any of the ringmen a call.

I look forward to seeing you February 15th and 16th in Des Moines !

Best Regards,  
*Kyle Gilchrist*

Rose is a very powerful made individual that has the brood cow look. She is sired by the now deceased 10,000 PIE Count Down bull. Her dam is a high producing Deep Creek 120 Female with an MPPA of 103.4 and weaned off Batterson Rose 269 at a ratio of 111 in 2009. In the 2004 Iowa Beef Expo a Deep Creek sired bull named Montana Creek bred by Meadow -West Farms sold to James Red Angus and sired numerous champions including the 2009 Iowa State Fair grand champion female and the 2009 Kick Off Classic high selling female at 16,000. 269W is a sure bet to generate dollars each and every year as a brood cow.

Very complete herd bull prospect sired by the 10,500 Midland Bull Test Holden Vista. The Holden Vista X Deep Creek mating has worked very well for the Rock'n R Angus ranch in Kansas in their 2009 sale the top 5 selling bulls were all this very same mating. This mating is a unique combination of extra bone and stoutness with out sacrificing maternal traits with Deep Creek 120 currently @ a 37 on his milk EPD. 418 weaned at just shy of 700 pounds and is currently on target for a yearling weight over 1500 lbs. His dam has a 2 progeny WR @ 106 and produced a member of the 2008 Denver pen for the Rock'n R Angus program while his maternal grand dam has a WR 8 progeny @ 107. He is backed by a great producing cow family, he is big time herd sire prospect and a real herd builder.

Sired by the new Genex Sire Six Mile Sakic that has created a lot of talk in the Red Angus circles. 84W is a stout made, thick-topped, deep sided individual that is packed full of red meat. His dam is a very consistent producing easy keeping female with an MPPA of 102.3 and a maternal sib to the 2004 Nebraska Cattle Men's Classic champion bull that was later named bull calf champion in Houston. This is a unique opportunity to take advantage of the mating of two of the most powerful bulls in the breed and one of the first chances to put a SAKIC sired bull to work in the breeding pasture this spring.

Coffman Red Angus, the breeder of the Dam of the 2009 National Red Angus Grand Champion Bull at the NAILE is pleased to bring a very feminine, dark red, easy keeping heifer to the 2010 Iowa Beef Expo. She is loaded with calving ease with a CED of 10, BW -2.1, and CEM of 11. This cow family is very productive with both grandmothers still producing at 12-13 years of age. She is AI bred to Feddes Big Sky who is the Genex top selling calving ease sire that will add volume and capacity. **AI bred 5/20/09 to Feddes Big Sky then PE 5/30/09 - 7/9/09 to LSF RR Picasso.**

Jewel 856U is a high volume, big ribbed daughter of MLK CRK Data 5101 and out of a big ribbed daughter Beckton Lancer F442 that traces back to the famous James 904 cow. This is an excellent opportunity to purchase an older heifer ready to breed. Because of her age we held her open to breed for an early January calf. Her dam is now in our donor cow pen. Take a look at the balanced numbers and outstanding phenotype Jewel 856U brings to the table. This is a chance to buy a great cow prospect!!

Wrangler is a true herd bull prospect for our first ever bull entry in the Iowa Beef Expo Auction. Wrangler is a powerful big butted son of the \$77,500 Coley's Mojito 503R. Wrangler combines the bone and muscle we have come to expect from the Mojito progeny into an attractive herd bull package with tremendous numbers. His yearling weight, milk and total maternal all rank in the top 5% of the breed. Wrangler is the natural calf out of one of our top donor cows, OCC Osce Grand N25. N25 is all so the dam of Overmiller's 610S, who topped Bull Power II in 1997. N25 is tested OSF and she is sired by the great cow make Grand Canyon. Wrangler is a great representation of the kind of bulls we try to raise at Coley Cattle Company.

This female is one of the most intriguing heifers we have ever raised. If placed in the right hands, this little lady could have a very successful show career. She is out of one of our top donors, SLGN Riley, who won the Iowa State Fair and Aksarben in 2006. Take one look at her picture and you will know that not only will Rumor follow in her mother's footsteps, but she will mature into an amazing female. Serious showman take a good hard look, because this girl was born to get people's attention. She is so extended through her front one third, and very attractive in her overall design. What's even more exciting though, is knowing that after her show career she will turn into an amazing cow. OS tested free pedigree.

This young April female has a very bright future ahead of her. This heifer is really the total package, not only did she post a 108 weaning weight ratio, but her balanced epd profile, fleshing ability, and brood cow look are sure to make her a productive and profitable female in anyone's herd. Her mother has given us 4 heifer calves, and this is the first one we are letting off the farm. Her sire is a son out of Cheyenne that we raised, and he has been our primary herd sire for four years now. His next calf crop will hit the ground in March, and we have never yet pulled a calf out of him. The maternal power behind this female proven, and the calving ease is built in - don't pass by a female with such potential.

This young herd bull prospect is a twin to Power to Persuade 103V. His dam Sweet Persuasion raised these two bulls completely on her own, and her accomplishments are very impressive. She weaned off a whopping 1346 lbs of calf in these two bull calves. This certainly doesn't surprise us though; her dam is none other than Meado-West Persuasion donor owned by Solution Genetics. As a yearling heifer, the dam of these two bulls scanned an unbelievable CUP labs certified 7.0 IMF. We expect these two bulls to follow in their mother's footsteps. Doctor Persuasion is a more moderate framed version of his brother; he's very clean made and attractive in his design. He carries a tremendous amount of natural thickness over his top and down through his quarter. Look at these two bulls individually, and then look at what their mother was able to accomplish. Think about the type of females and bulls they will produce. OS tested free pedigree.

Power 2 Persuade is the more performance oriented bull of the pair, posting an individual weaning weight of 729 lbs, having said that, he still has the power and thickness found in his brother. He certainly takes after his dam in the fact that he is really easy fleshing and low maintenance. We have had long family conversations about which one of these two bulls is better, and we still haven't decided. We will let you decide which bull is better for your program, but there is one thing we do know; they are both going to be very productive. At the Iowa State Fair this year, as calves, they took home the honors of Champion and Reserve Champion Bred and Owned Bull. Their Carcass traits should be tremendous, their epd profile is amazing (they rank in the top 22% for BW while maintaining a top 7% rank for YW and a top 14% rank for WW), they are pleasing to the eye, and their pedigree is proven. What more can you ask for? OS tested free pedigree.

Here is an outcross pedigree that should get the heads turning in Des Moines. Coming from the well known Lazy MC Angus herd in Alberta, Canada this female offers nothing but positives from a breeders standpoint. She is a very feminine female that offers plenty of depth of body and eye appeal while standing on a very sound foundation. Her dam is a first calf heifer and has a very promising future for Lazy MC. Be sure to view more pictures of her at [www.solutiongenetics.com](http://www.solutiongenetics.com).

This little gem is sired by Punch 33T which is a Mulberry 26P son out of a New Trend daughter. He also sired Celia's Reserve Heifer Calf Division winner at the National Junior Red Angus Show in Louisville which was purchased by Jesse Nelson at our 2009 production sale for \$3000. Her dam has been a solid performer we purchased from N-Bar several years ago.

To put it simply you won't find many cows with as much capacity, length, correctness and stature as 549 possesses. This elite donor has progeny in over 20 herds throughout the country. Her Glacier Marias offspring have been her top producing and breed leading. The numbers from these embryos are overwhelming ranking in the top 1% of the breed for weaning, yearling, maternal and milk with a marbling ranking of 9% and a MPPA of 112.2. Runcloud 549 at the age of 15 continues to be a steady producer and in excellent health. This is a rare opportunity to purchase extraordinary genetics! **Offering a package of three embryos with a guarantee of one pregnancy if implanted by a certified embryologist.**

A rare daughter of the famous Gilchrist DR Hoss bull that blew away the competition in the 2008 Red Alliance Bull test by gaining 5.25lbs ADG (ratio 127), 3.62 lb. WDA (ratio 111) and had a 5.26 MARB scan! DR Hoss has consistently sired extremely deep ribbed, heavy muscled calves with a lot of style and eye appeal. SAR Roxie 904W is exceptionally stylish and as deep as they come and to top it off she touts an 82 YW, 21 Milk and 42 TM! She is currently on test and at printing gaining 3.3 lbs per day with a WDA of 2.52.

Keep in mind 918W is just an April calf, but will no doubt hold his own in this line up. He will produce easy fleshing cattle that are loaded with muscle and mass. His sire DR Hoss still ranks in the top 1% of the breed for WW, YW and TM! He is also in the top 4% for Milk.

Daughter of Major League. Very eye appealing heifer with a long neck, straight top and level rump. Very deep ribbed and walks out with a long stride. Will be an excellent show prospect. Excellent balanced EPD's. Out of a first calf heifer. Dam is sired by LCB Hoss and is one of our very best young cows. Grand Dam was a Division winner at the Iowa State fair and class winner at Denver. We would be keeping her, except we have retained three bulls out of the same cow family.

Son of Major League, out of a first calf heifer. Excellent balanced EPD's. Would make an excellent "heifer" bull, negative on birth. (-.8 BW EPD). Adjusting weaning wt. of 789 lbs and ratio of 108. Dam is a moderate framed female with an excellent udder - sired by LCB Hoss, one of the best maternal sires in the breed. Very long necked yet heavily muscled with large testicles. Grand Dam was division champion at Iowa State Fair and class winner at Denver. Dam was class winner at Iowa State Fair, Denver, and Ft. Worth. Was not shown again due to injury.

When Kyle stopped out this summer he picked this one out right away and said she needed to be at Expo, well here she is, although I'm fighting it the whole way. I absolutely love this girl, fancy, fancy, fancy. She's got it all to back it up too, starting at 84lbs. and powering up to a 702lb. adj. ww. Out of our Visionary bull who's throwing beautiful females with that brood cow look, she is destined to be a donor cow for someone. Our popular donor "Peanut" is the paternal grand dam and the cow power is stacked on the bottom side with Cheyenne and the legendary Finch Flora cow family on the bottom side.

Here's a real muscle bull out of our newest herdsire NSFR Marlin, calved unassisted out of a first calf heifer. Godfather is a deep red, sweet fronted bull with a huge top and heavy quarter. Also he's a bull backed with maternal power, backed by our popular "Peanut" cow and going back to Chateau on the sire's side.

# Sale Terms and Conditions...

**TERMS:** Terms of the sale are cash, check, or other terms agreed to in writing between seller, buyer, and sale manager payable immediately upon conclusion of the sale before animals will be moved. Sale Manager reserves the right to require a certified check as settlement before releasing any cattle.

**PURCHASER'S RISK:** All animals are the owner's risk prior to their sale and become property of the purchaser as soon as declared sold by the auctioneer.

**BIDDING:** Any disputes or challenges regarding bids or tie bids will be settled by the auctioneer and his decision will be final.

**CERTIFICATE OF REGISTRY:** A certificate of registry for each animal will be transferred to the buyer at the seller's expense.

**ANNOUNCEMENTS:** Any errors or changes in information contained in the catalog will be announced from the block and such announcements shall take precedence over the information contained herein.

**HEALTH:** All animals are eligible for interstate shipment. Interstate health papers prepared by an accredited veterinarian will be furnished on each animal sold. Arrangements for International Shipment should be made with the sale manager prior to the auction. All efforts for the exportation of cattle can be arranged through the sale manager.

**BREEDING GUARANTEE:** All animals are guaranteed by the seller as outlined in the Red Angus Association of America Code of Ethical Sale Practices

**LIABILITIES:** All persons who attend the sale do so at their own risk. The seller, auction facility, and sale manager assume no liability for any accidents that may occur. Neither does the seller, auction facility, or sale manager assume liability for the loss or injury to livestock due to theft, mysterious disappearance, sickness, improper handling or Act of God. It is to be clearly understood that the sale manager and its representatives act only as a medium between the buyer and the seller. They are not responsible in any way for the failure on the part of the buyer and seller to live up to their obligations or for the truth of any warranties or representation, express or implied. Neither does the sale manager assume any financial obligations to collect or enforce collection of monies between parties. Any legal action, that may in exceptional cases be taken, must be between the buyer and the seller. This catalog has been prepared by the sale Manager from pedigrees and information supplied by sources deemed reliable, however, the sale manager will in no way guarantee the pedigree, percentages of the animals selling, or data included in this catalog. Any exceptions taken are between the buyer and the seller.

**CONTRACT:** The above terms and conditions of sale shall constitute a contract between the buyer and seller of each animal and shall be equally binding upon both. Each sale or resale of an animal constitutes a separate transaction.

**PHONE BIDS:** Telephone bids will be taken by the sale manager. Kyle Gilchrist's cell number is (641) 919-1077.
