

ALLIANCE

Fall Auction

Wednesday, December 2, 2009 • Noon

Oklahoma Beef Incorporated (OBI) • Stillwater, Okla.

Welcome...

The Red Alliance team welcomes you to our Fall 2009 Bull and Female Auction. Although this offering is smaller than our spring sale, it is packed with excellent performance and the usual high quality genetics you have come to expect from Red Alliance cattle.

We are proud of being a quality producer of Red Angus cattle and at affordable prices. You can look elsewhere and pay more if you want but the reality is we offer genetics as good as the very best in the industry for less. The other fact we want you to realize is that each member herd of the Red Alliance team is totally independent making their own breeding decisions. The beauty of the Red Alliance program is that these bulls come together as weanlings and get tested head-to-head to identify the growth, carcass and soundness traits that everyone is looking for. Why would you ever buy a bull that has not been growth tested and scanned for carcass traits? We see many highly promoted bulls that are a big disappointment when you put them to the true test – performance in the real world. Our offering of Red Angus bulls is second to none in the industry for growth and soundness . . . we guarantee it ! There is a difference in Red Angus seedstock sires and the Red Alliance program offers you sires with more growth and more carcass traits than any other bull offering in the country.

This year we will sell approximately 160 bulls which easily makes us one of the top ten suppliers of Red Angus bulls in the United States. We have not grown to this level without providing performance and customer service. Because each of our Red Alliance herds makes their breeding decisions independently, we offer the widest and most diverse genetic offering in the industry. Although our primary goal is to serve the commercial cow/calf sector, the discerning seedstock producer will always find excellent herd bull prospects. You will find a handful of longer aged bulls that were born in July and August that will be a good fit for those wanting immediate turnout on a large set of cattle.

Our yearling bulls will be in excellent condition and have some of the hottest genetics offered in the breed today. Note the large number of bulls sired by the Canadian sensation – Fine Line Mulberry as well as breed patriarchs like Glacier Chateau, LSF Combination, Basin Hobo 79E, Dakota Copper, Canyon, Above Heaven, JDB Equals Thunder, Grand Prix, Grand Canyon and a number of sires that outproduce the big name A.I. stud bulls.

For those of you looking for females to give your program a boost in powerful genetics or start a new herd, we have an outstanding set of Red Angus cattle to preview and bid on sale day. Remember these females are the dams and sisters of many of the great Red Alliance bulls that we have sold in the past or will be offered in our upcoming Red Alliance Auctions.

Come join us on sale day and experience the difference.

Warm Regards,
The Red Alliance Team

P.S. Don't forget to mark you calendar for our Spring 2010 Red Alliance Bull and Female Auction Saturday March 13, 2010.

Red Alliance Fall Auction

Wednesday, December 2, 2009 • Noon • Sale day lunch served at 11 a.m.

Oklahoma Beef Incorporated • Stillwater, Oklahoma

Interstate health certificates will be provided for every animal sold.

Foreign export health certificates can be arranged through the sale manager.

OKLAHOMA BEEF INC. (OBI)

STILLWATER, OKLAHOMA

Tim Stidham, manager of our bull test and auction site

Breeding Guarantee

All bulls are guaranteed in accordance with the terms and conditions recommended by the Red Angus Association of America. This guarantee does not cover mortality and we encourage buyers to consider buying an insurance policy. All bulls covered by our guarantee will require that we retain salvage value for the bull. Any bull kept for 30 days immediately following the sale will incur a \$500 "breeding use" fee. Any bulls returned to Red Alliance for injury or non performance may require a vet statement. All bulls returned for a guarantee must be returned to OBI or a partner member ranch within 14 days of submitting the claim. Our guarantee will provide for a full replacement bull of equal quality and value or a full purchase credit to be used in future Red Alliance auctions.

Insurance

Mortality Insurance available through: Hugh F. Miller Insurance Agency, Inc. Representative of American Livestock Inc. Contact Amy Gilchrist for more information.

Buyer Representatives/Ringmen

Doug Paul, Stock Exchange: (405) 820-3982

Joel Birdwell, Special Assignment: (405) 368-1058

Chisolm Kinder, Oklahoma Cowman: (405) 747-4683

These buyer representatives are available to assist in making your purchases. Feel free to give them a call to place bids or for live evaluations of cattle at the auction.

Fertility Testing

Every bull has been fertility tested and passed a breeding soundness exam prior to sale day.

Genetic Defect Statement...

Over the past two years there has been a considerable amount of time and effort spent by the American Angus Association and more recently by the American Red Angus Association identifying genetic defects. These efforts are well intentioned and focused primarily on keeping the seed stock pool of registered cattle free of defects.

The hardcore reality is that both breeds have developed a relatively small gene pool and some breeders chased line breeding in an effort to enhance certain characteristics. Even though as humans we have the good sense to not “marry” family members some folks have failed to apply the same common sense to breeding cattle and thus line breeding caused a few problems. Therefore the gene pool became even tighter.

As it relates to Red Angus cattle the primary defect of concern is Osteopetrosis or marble bone disease. Ever seen one born? Don't feel left out because neither have veterinarians and ranchers all across the country. Ask every vet you know if they have ever seen a case of marble bone disease. The vast majority will have only read about it in books because there are no physical samples to analyze and research. There have been less than a dozen cases documented in the Red Angus breed and in a well intentioned effort the breed association decided to implement a testing policy to identify carriers and those that have been identified as being “free” of the defect.

For those of you who are commercial cow/calf operators the likelihood that a carrier female will mate with a carrier bull is infinitely small. I ask again, ever seen one born? Some of the most heavily used blood lines have been identified as carriers with breed greats such as Canyon, Grand Canyon, Gran Prix, Romeo and many others. They have been great blood lines for years because they performed well and they will continue to perform well for many years!

The genetic defect testing policy has created concern but common sense should apply. If you are a commercial cattle operator buying bulls identified as carriers or have simply not been tested, they will have virtually no effect on your calving just like it has not had an effect for many years. You can go back to worrying about scours, navel ill, respiratory problems and all the other things we have dealt with for years. If you are a seed stock producer then the choice is simple. For sire selection choose a bull that has been tested free.

Science is a great tool for us but sometimes it tells us things that have an extremely low probability. Recently science experts tell us a giant meteor could hit earth and destroy the planet. The likelihood is next to impossible to calculate and much of the same common sense needs to apply with respect to the defects as it relates to cattle. The great Grand Ole Opry star and country comic Jerry Clower once stated,....”You are obviously educated beyond your intelligence”. Well folks, we think in this case science has educated us beyond our intelligence.

Please call or see us if you have any questions regarding this matter.

Will have Coley's Mojito 503R (#1026932) calf at side by sale day. This King Rodge daughter exemplifies the Red Alliance program's success. King Rodge has been our "poster child" with his photo being used in nearly every advertising campaign since the inception of our program. Many King Rodge sons topped our first three Red Alliance Tests for performance, soundness and quality. The calf at side will be an exciting addition to any herd, sired by the record setting NWSS Mile High Classic Bull -- Mojito 503R, the growth and performance in this calf will be unmatched.

BDEE Minola 8126 is a bred heifer sired by Messmer Judge 36N who is a Julian B571 son backed by a standout Marias daughter. Judge is thick, long, muscular and deep with good spring of rib. BDEE Minola 8126's dam is a New Chapter sired cow from the great Minola cow family and was one of the top donors for Brandee Cattle Company in Kansas. She is moderate framed and deep ribbed with a long hip. Nine of her EPD traits are in the top 25% of the breed. She will make a great cow. **She is confirmed bred to our calving ease specialist BDEE Direct Ticket 7077 (reg. # 1192564) to calve in January 2010.**

Beautiful bred heifer that will pay a quick dividend with a calf in the near future. This heifer represents a powerful set of genetics and it is reflected in her EPD's. The sire is a 2,200 pound powerhouse that is one of the most stylish bulls in the breed combined with a dam that is out of the immortal King Rob and the top donor cow in the Whisnand Red Angus program you have a top quality herd building type of heifer. **Bred to 3J Tribesman (1180268)** who was the second highest selling bull in the 2008 Red Alliance sale. Exposure dates were 4/5/08 – 6/5/08. Due to calve from January 15 – March 15, 2009. Style, genetics and a calf on the way makes this bred heifer one to inspect closely on sale day.

As her name suggests this heifer is special! Sired by PERKS GTO who has been a very consistent performer with progeny selling through the Red Alliance program. The dam is beautiful and out of the former National Champion, Badlands Mr. Beef. Be sure to check out the GTO sired bulls that will be selling today and see how consistent the progeny are out of this sire. An excellent set of EPD's will give the buyer multiple options when making breeding decisions. **Bred to 3J Tribesman (1180268)** who was the second highest selling bull in the 2008 Red Alliance sale. Exposure dates were 4/5/08 – 6/5/08. Due to calve from January 15 – March 15, 2009. A baby calf out of a bull that is about to make a name for himself could give the buyer excellent lead time on powerful genetics.

Excellent quality bred heifer that will catch your eye on sale day. The sire is a 2,200 pound powerhouse that is one of the most stylish bulls in the breed combined with a very high performing dam. The dam is an extremely good performer with high performing females selling at sales in Texas and here at Red Alliance. This heifer will have two ET half brothers in the sale out of Combination that are some of the highest performers in the bull test. If you want to build or add quality to a herd of Red Angus cattle this is the type of female you will want. **Bred to 3J Tribesman (1180268)** who was the second highest selling bull in the 2008 Red Alliance sale. Exposure dates were 4/5/08 – 6/5/08. Due to calve from January 15 – March 15, 2009. With a calf in the near future this purchase could pay quick rewards.

Bred to Brown Commitment S7206 (#1120008) Due 1/01/10.

An outstanding bred heifer from BOLA Red Angus loaded with carcass characteristics and an impeccable set of EPDs. Her sire has been used successfully across the country in many of the major herds and her dam is an incredible daughter of Julian B571 with a rock solid 102.9 MPPA. Bred to the awesome ABS sire -- Brown Commitment -- her new year's baby will be cause for major celebration!

TJS FIREFLY U851

Owner: BOLA RED ANGUS / MARJA & KEN BOWER & LANE LADEWIG FORESTBURG, TX / (940) 964-2317

Bred to McPhee Pacific Pride 4127 (#1112140) Due 1/22/10.

A fantastic Gridmaster daughter from the power packed maternal combination of Lancer F442T and Cherokee Canyon. Bred to the Pacific Pride bull from the McPhees of California, he sold in the 2007 Bet On Red Auction to Sun River Red Angus of Montana. We always expect great things from the BOLA Red Angus program and Lot 66 certainly will make an impact in whatever program buys her December 2nd in Stillwater. Watch for this heifer in the future, she could easily produce the next great national herd bull!

A.I. bred 5/28/09 to Badlands Net Worth 23U (#1267422) then P.E. to 3J Good News U188 (#1269210). This Chateau X Copper Rob daughter ranks in the top 6% of the breed for Milk and top 4% CEM. Her five year old prime-of-her-life status will make her an excellent investment on December 2nd. She was A.I. bred to one of the most exciting Red Angus bulls in the industry today -- Badlands Net Worth 23U -- the syndicated Shaq X Medora bull from North Dakota. Watch future Red Alliance Tests for Net Worth sons -- both 3J Farms and Star G Ranch has invested shares and will be the "target" and ones to beat with these outstanding calves

Why would anyone sell a cow like Mattie M2104? I am not sure but take a look at her unmatched pedigree – JR 107 X Rambo 502 and the famed Bootjack Mattie cow family. JR 107 daughter's bull calves have topped several Red Alliance Bull Tests and this tremendous cow packs a whallop with an MPPA of 105.8! I can think of lots of programs that don't have Donor Cows as powerful as Lot 72. **Pasture exposed to XFactor (#1227029) from 5/1/2009 to 6/30/3009.**

Bred to Gilchrist Dr Hoss (#1198472) due February 2010. I owned the maternal grand dam to this cow with Lazy J Bar Ranch of South Dakota when she sold a \$10,000 bull calf to Jerry Kaup. Karuba 673 has done everything you could ask, weaning an outstanding Gilchrist Dr. Hoss heifer this fall as a two year old and breeding right back for a February 2010 Dr. Hoss calf. Dr. Hoss dominated the 2008 Red Alliance and set the record at \$17,500 to Rocking R Ranch of Iowa. I only have a few straws of this phenomenal bull left but he is definitely being used in our Donor Program.

Ultrasound safe to 5L Direct Travlr 363-6325 (#1048135) with a heifer calf due February 2010.

This super Dakota Copper daughter is carrying a heifer calf by the 5L bull now in heavy use at Jacobson Red Angus of Minnesota. 5L Direct Travlr has tremendous progeny averages of IMF ratio 115 and REA ratio of 101. He also touts a top 5% of the breed Milk, top 5% TM and top 2% MARB. Lot 76's 2010 heifer calf will be very interesting to say the least.

Owner: MORRIS/BOX RANCH / JUSTIN, TEXAS / (817) 929-7773

She is just a baby but what a future. She is moderately framed, well balanced and extremely feminine. Take a look at her numbers, 76# BW to a 624#Adj WW. The EPD's indicate that she will transfer her performance onto her offspring. Don't miss this chance. Her dam was a first calf heifer that we purchased from CBAR in Kansas. She should be in someone's show string. We decided to send the best heifers we could to the Red Alliance and she is one.

Norseman King daughters have been widely accepted and highly sought across this country. Add to the maternal package a Make My Day dam and U585 will prove to be a highly maternal milk machine. Moderate sized cows in the quest for efficiency is on the mind of many cattle producers today and Lot 83 will certainly fit that bill.

Red Fine Line Mulberry 26P • Sire of Lot 84

Mulberry daughters have been the dominating money grabbers since our fall 2008 season. As they mature and go into production, you will appreciate their great udder type and functionality. While Mulberry sons are very nice animals, I believe his true mark in the breed will come through his tremendous daughters. Don't A.I. to him, grab some lead time and buy some daughters!

DJH Nora combines two of the larger statured bulls of the breed -- Vaquero and Gold Robber. These bloodlines have made the Diamond JH bulls the ones to beat in this Red Alliance Bull Test. Jerry Henderson likes a lot of growth in his cattle and this outstanding heifer with a top 5% of the breed Heifer Pregnancy can not only produce high growth but will offer lots of fertility and productivity. Not a bad trait to add to high growth genetics.

Lots 150-158 9 Open Heifers

Owner: MILES & REBECCA BOATMAN / BIRMINGHAM, IOWA (641) 919-4661

Sale Terms and Conditions

TERMS: Terms of the sale are cash, check, or other terms agreed to in writing between seller, buyer, and sale manager payable immediately upon conclusion of the sale before animals will be moved. Sale Manager reserves the right to require a certified check as settlement before releasing any cattle.

PURCHASER'S RISK: All animals are the owner's risk prior to their sale and become property of the purchaser as soon as declared sold by the auctioneer.

BIDDING: Any disputes or challenges regarding bids or tie bids will be settled by the auctioneer and his decision will be final.

CERTIFICATE OF REGISTRY: A certificate of registry for each animal will be transferred to the buyer at the seller's expense.

ANNOUNCEMENTS: Any errors or changes in information contained in the catalog will be announced from the block and such announcements shall take precedence over the information contained herein.

HEALTH: All animals are eligible for interstate shipment. Interstate health papers prepared by an accredited veterinarian will be furnished on each animal sold. Arrangements for International Shipment should be made with the sale manager prior to the auction. All efforts for the exportation of cattle can be arranged through the sale manager.

BREEDING GUARANTEE: All animals are guaranteed by the seller as outlines in the Red Angus Association of America Code of Ethical Sale Practices.

LIABILITIES: All persons who attend the sale do so at their own risk. The seller, auction facility, and sale manager assume no liability for any accidents that may occur. Neither does the seller, auction facility, or sale manager assume liability for the loss or injury to livestock due to theft, mysterious disappearance, sickness, improper handling or Act of God. It is to be clearly understood that the sale manager and its representatives act only as a medium between the buyer and the seller. They are not responsible in any way for the failure on the part of the buyer and seller to live up to their obligations or for the truth of any warranties or representation, express or implied. Neither does the sale manager assume any financial obligations to collect or enforce collection of monies between parties. Any legal action, that may in exceptional cases be taken, must be between the buyer and the seller. This catalog has been prepared by the sale Manager from pedigrees and information supplied by sources deemed reliable, however, the sale manager will in no way guarantee the pedigree, percentages of the animals selling, or data included in this catalog. Any exceptions taken are between the buyer and the seller.

CONTRACT: The above terms and conditions of sale shall constitute a contract between the buyer and seller of each animal and shall be equally binding upon both. Each sale or resale of an animal constitutes a separate transaction.

PHONE BIDS: Telephone bids will be taken by the sale manager. Kyle Gilchrist's cell number is (641) 919-1077.
