

ALLIANCE

7th Annual Spring Production Sale

Saturday, March 13, 2010 • Noon

Oklahoma Beef Incorporated (OBI) • Stillwater, Oklahoma

Welcome...

Welcome to the Spring 2010 Red Alliance Production Sale. This will be our 9th sale since the Red Alliance team formed and our commitment to quality and performance continues.

From time to time we are asked what is the Red Alliance? Our team was formed in 2003 and was founded by a small group of progressive Red Angus breeders that have a commitment to raising quality cattle and most importantly are people with great character and impeccable integrity. The best way to make a comparison with other producers, essentially, is that we are like ranches that have cooperator herds contributing to the pool of bulls they sell in their production sales. The founding members of Henderson Farms, Whisnand Red Angus, 3K Land and Cattle, 3J Farms, Shar Red Angus and Star G Ranch remain as primary members and over the years we have added key contributors that have similar philosophies in the quality of their cow herds and most importantly, their character and integrity. Ranches like Morris/Box Ranch, Wickman Farms, Fleming Red Angus, Bar G Red Angus, Rocking R Ranch and Walnut Spring Farms. This year we are excited to have North Central Texas College as a member. All of these cooperators were hand selected by the founding members as folks we wanted to contribute bulls to sell and market through the Red Alliance.

The Red Alliance is not a consignment sale where there is a fragmented approach to quality of cattle and commitment by consignors. We only allow “consignments” for registered and commercial females in order to have a greater supply of females for our customers.

While the nation struggles with an economic downturn the Oklahoma cattle industry continues to defy national trends. Below are excerpts from an article written by Derrell Peel, Oklahoma State University Extension Livestock Marketing Specialist...

“As expected, USDA’s annual Cattle report showed that the U.S. beef industry continues to get smaller. The inventory of all cattle and calves was 93.7 million head, down 1 percent from last year; down 29 percent from the all-time high in 1975 and the smallest inventory since 1961. The beef cow herd was 31.4 million head, also down one percent from a year ago and the smallest since 1964. The total U.S. calf crop in 2009 was 31.8 million head, down one percent from last year and the smallest since 1950.

In Oklahoma, however, the beef cattle industry has continued to grow over the past two decades. The January 1, 2010 Oklahoma beef cow herd was 2.073 million head, up 1.7 percent from last year. In 1988, Oklahoma beef cow numbers reached a 25 year low of 1.8 million head. The Oklahoma beef cow herd has increased by 15 percent since then, with year over year increases 13 of the last 23 years. Oklahoma beef cow numbers are currently at the highest level since 1984 and Oklahoma ranks second among states in beef cow numbers.”

As everyone knows the spread between choice and select has narrowed considerably. This is where Red Angus and in particular Red Alliance bulls can make a difference to commercial cattlemen. You need all the weight you can get on your calves and that is what we specialize in with our bulls. Good carcass quality comes free and is just a natural by-product of Red Angus cattle.

Come see what will be the very best we have ever offered on March 13th!

Warm Regards,
The Red Alliance Team

Red Alliance Spring Auction

Saturday, March 13, 2010 • Noon • Sale day lunch served at 11 a.m.

Oklahoma Beef Incorporated • Stillwater, Oklahoma

OBI is located 8 miles east of I-35 or 8 miles west of Stillwater, Oklahoma on Hwy 51 on the South side of the road.

Foreign export health certificates can be arranged through the sale manager.

OKLAHOMA BEEF INC. (OBI)

STILLWATER, OKLAHOMA

Tim Stidham, manager of our bull test and auction site

Breeding Guarantee

All bulls are guaranteed in accordance with the terms and conditions recommended by the Red Angus Association of America. This guarantee does not cover mortality and we encourage buyers to consider buying an insurance policy. All bulls covered by our guarantee will require that we retain salvage value for the bull. Any bull kept for 30 days immediately following the sale will incur a \$500 "breeding use" fee. Any bulls returned to Red Alliance for injury or non performance may require a vet statement. All bulls returned for a guarantee must be returned to OBI or a partner member ranch within 14 days of submitting the claim. Our guarantee will provide for a full replacement bull of equal quality and value or a full purchase credit to be used in future Red Alliance auctions.

Insurance

Mortality Insurance available through: Hugh F. Miller Insurance Agency, Inc. Representative of American Livestock Inc. Contact Amy Gilchrist for more information.

Buyer Representatives/Ringmen

Joel Birdwell, Stock Exchange: (405) 368-1058

Chisolm Kinder, Oklahoma Cowman: (405) 747-4683

John Andras, Weekly Livestock Reporter: (817) 789-7352

These buyer representatives are available to assist in making your purchases. Feel free to give them a call to place bids or for live evaluations of cattle at the auction.

Fertility Testing

Every bull has been fertility tested and passed a breeding soundness exam prior to sale day.

Owner: WHISNAND RED ANGUS / WHITEWRIGHT, TX / (214) 762-8541

Mattie 4295 is a 6 year old cow that is literally in the prime of her life. There are very few females in the breed that have the type of performance that this power house demonstrated as a growing calf. Check out these factsactual weaning weight of 699 lbs. and an actual yearling weight of 1039 lbs.. Mattie is a very good milking cow and is a great calf raiser. Her pedigree is peppered with AI sires and some of the greatest cows ever in the breed.

At side is a bull calf born 12/15/09 that weighed 73 lbs. at birth and sired by WRAF Comanchero (889151). Comanchero was the high selling bull at the very first Red Alliance sale in 2004 and he is still working in the pastures for us and Wickman Farms at the age of 8 years old. Check out the two bulls being sold today that were sired by Comanchero and performed like they always do, ...great! Mattie will come to the sale in very modest condition due to range conditions that are very poor as a result of extensive rainfall and very muddy conditions for several months in the North Texas area and at our ranch. She carries her condition very well under normal circumstances.

WRAF Cmanchero • Sire of Lot 77 calf

There are only a few opportunities for three in one packages on sale day and this offering will be one to watch closely. A 7-year-old cow in the prime of her production years with a MPPA of 102.7 in an outstanding cow herd. At side is a heifer calf sired by Red Brylor Thump (1207936) who is producing calves that stand out starting on the day they are born. This heifer was born on 10/3/09 with registration number pending. The dam was pasture exposed to Badlands PFFRBeefmaker 638 (1118212) from 12/1/09 – 2/15/10. Breeding status will be confirmed on sale day.

Owner: 3-J FARMS, LLC / RAVIA, OK / HOME: (580) 226-1915

One of the most unique packages available on sale day. A pure Cheifline cow out of the great PBC D0202 bull and highly maternal, easy fleshing cattle on the dams side. Both sides of the pedigree represent the best that George Chiga built in his trail blazing for Red Angus cattle. You can use this 1A cow as a herd matron or as 3J Farms has done by using her as a recipient cow for embryos that will be available for sale.

Embryo calf at side – The highlight of this offering is the heifer calf at side that is the result of mating Red Brylor Thump (1207936) with HVR Verdale 505 (1066947). Thump has gathered a considerable amount of attention in Canada and then 3J Farms purchased the US semen rights. Thump provides some of the most exciting and fresh new genetics to hit the Red Angus breed in quite sometime. How about the dam? HVR Verdale was great enough to be accepted as an embryo lot provider in the truly historic History in The Making sale where all time high sale records were established and might never be broken. The heifer calf was born 9/8/09 and her registration number is pending.

Breeding status of dam – pasture exposed to the \$22,000 BadlandsPFFRBeefmaker 638 (1118212) from 12/1/09 – 2/15/10. Help yourself to a three in one package for maximum value.

Brandee Cattle purchased LSF MATTIE 8021 339 in 2004 from Ludvigson Stock Farms' "Focus on Females" sale as the top selling bred heifer for \$10,000 and put her in the donor pen. Her first calf became a donor cow within the Brandee program and sold at their dispersal sale for \$12,000 to R.A. Brown Ranch in Throckmorton, TX. BAR G MATTIE 339 promises to follow this tradition and is sure to enter someone's donor pen. She is a deep-ribbed, long-bodied, calf with a lot of capacity. Just look at her growth, maternal and carcass EPDs with five traits of economic performance in the top 16% of the breed. She is definitely the front pasture kind. The Mattie cow family with origins from the Bootjack Ranch is one of the most prolific cow families in the breed.

We purchased this heifer at Bullis Creek Ranch's spring sale as the top pick of the Mulberry heifers. RED FINE LINE MULBERRY 26P may be the hottest bull in the breed today producing show winners and sale toppers all over the United States. BCRR SURPRISE 803U is a tank of a heifer, deep-ribbed with loads of capacity and long-hipped. Her dam MPPA is a whopping 107.6. She has six traits of economic importance in the top 25% of the breed. **She is confirmed bred to our BDEE DIRECT TICKET 7077 (Reg. # 1192564) herd sire who is our calving ease specialist with a -4.8 birth weight EPD to calve in March 2010.** She may have a calf by sale day.

We purchased SIS DINA DIVISION 7416 from Speer and Speer Red Angus as the "pick of the heifer crop" in 2007. The calf really stood out in the herd and was an easy first pick. DINA W416 sired by Buffalo Creek Chief phenotypically is one of our top heifer calves this year. This moderate framed calf has been the pick of the heifer calves this fall by visitors to the ranch.

Barlee 656 was the high selling heifer calf in the 2006 NILE from Ron and Esther Fischer – Harlowton, Montana. Barlee W955 was sired by Mojo 707, a Mojito 503R son that is a powerful dark red bull with an attractive front third. He passed this phenotype along to Barlee W955 in that several have commented on her sound structure and show prospect potential.

You don't find very many folks letting go of Glacier Chateau daughters and for good reason. Year in and year out they are some of the very best calf raisers you can find. Style and performance is their hallmark. The bottom side of the pedigree is packed with the very best in the breed with Cherokee Canyon, No Equal and Monu 4X-303. This is a pedigree stacked with quality. A low birth weight EPD gives the buyer numerous options when selecting the sire for this heifer. Sells open and ready to breed.

This is a first class, herd building type of heifer. Blockana W71 has the beautiful phenotype that everyone is seeking and has the genetic power built into her pedigree. The dam, Blockana Gal P71 was purchased in a joint partnership between 3J Farms and Whisnand Red Angus for \$9,000 and immediately went into the pool of donor cows for both ranches where she has performed like you would expect the Blockana cow family to perform. The Blockana cow family is one of the premier cow families in the breed and there are not very many offered for sale. The sire, Beefmaker, was a \$22,000 purchase at Badlands and he is a monument to what Red Angus bulls should look like. Sells open and ready to breed.

This is a special offering. Most folks that want females out of the fantastic Bieber Boone 6927 sire have to go all the way to South Dakota to find them but not today! If that isn't good enough take a look at the great Rebellas cow family on the dams side. This is a top of the line breeding package that will have style to boot. Sells open.

Everyone that has ever seen the sire of this heifer, Ponderosa, has just stood there slack jawed and says ...oh my! He is that impressive! Ponderosa originally sold to Hall Red Angus in Nebraska, then went to Pennsylvania and with all of the ooohing and awing going on Henderson Farms tracked him down and brought him back to Oklahoma where he was born and raised. He put on a little weight over time but then don't we all? This heifer will combine growth and style. Sells open.

We are really excited about this mating. Sakic is the Canadian-bred phenomenon whose progeny have commanded a lot of interest all over North America this past year. He and his dam won the two year old class at the 2006 Canadian Western Agribition. Sakic is a moderate framed bull with a lot of balance and muscle shape. He stands on a square set of legs with a good solid foot under him. Donnell Brown of the RA Brown Ranch has stated that Ms Julia M7788 has consistently produced some of the most powerful and attractive cattle they have ever raised. She produced the Grand Champion female at the richest junior heifer show in America (San Antonio, TX). She also produced the Grand and the reserve Grand Champion

Many of us know the great production of New Trend 22D and his son DJH Red Trend has carried on the genetic qualities one would expect. Henderson Farms kept this bull for their breeding program and when Randy Wickman saw Red Trend in the pasture and Henderson Farms the private bidding began. The Hannabelle dam is a truly impressive animal with a deep rib and very high volume. Hannabelle was out of one of the best cows ever in the Red Angus breed, Bar S Cherabelle 6129. They simply don't make cows any better than the dam and grand dam. This is the whole package type of female! You won't be disappointed when you see her. Sells open.

What a powerful mating! Full Throttle is the Genex sire recently named the Grand Champion bull at the 2009 World Angus Forum held in Canada, his country of origin. Full Throttle adds depth of body, muscle mass and outcross flavor to his progeny. Tony Tolar with A-1 Land & Cattle purchased Ms Monu P7931 as a three year old elite donor cow for \$12,000 at RA Brown Ranch's 2007 sale. She is long bodied with tremendous muscle expression and high volume along with a fancy feminine front. Check out her high growth and muscle EPDs. These calves should be amazing. Offering a package of 3 embryos with a guarantee of 1 pregnancy if implanted by a certified embryologist.

Lots 116-135

20 Red Angus Bred Heifers

Bred Heifers

Owner: HESS RED ANGUS / GRIDLEY, KANSAS / (620) 836-5275

20 Red Angus bred heifers bred 11/01/09 for 60 days to a Red Alliance bull with a -2.4 BW EPD. These heifers will be 28 mos. old at calving time and are 3/4 Red Angus blood content and higher.

Sale Terms and Conditions...

TERMS: Terms of the sale are cash, check, or other terms agreed to in writing between seller, buyer, and sale manager payable immediately upon conclusion of the sale before animals will be moved. Sale Manager reserves the right to require a certified check as settlement before releasing any cattle.

PURCHASER'S RISK: All animals are the owner's risk prior to their sale and become property of the purchaser as soon as declared sold by the auctioneer.

BIDDING: Any disputes or challenges regarding bids or tie bids will be settled by the auctioneer and his decision will be final.

CERTIFICATE OF REGISTRY: A certificate of registry for each animal will be transferred to the buyer at the seller's expense.

ANNOUNCEMENTS: Any errors or changes in information contained in the catalog will be announced from the block and such announcements shall take precedence over the information contained herein.

HEALTH: All animals are eligible for interstate shipment. Interstate health papers prepared by an accredited veterinarian will be furnished on each animal sold. Arrangements for International Shipment should be made with the sale manager prior to the auction. All efforts for the exportation of cattle can be arranged through the sale manager.

BREEDING GUARANTEE: All animals are guaranteed by the seller as outlines in the Red Angus Association of America Code of Ethical Sale Practices.

LIABILITIES: All persons who attend the sale do so at their own risk. The seller, auction facility, and sale manager assume no liability for any accidents that may occur. Neither does the seller, auction facility, or sale manager assume liability for the loss or injury to livestock due to theft, mysterious disappearance, sickness, improper handling or Act of God. It is to be clearly understood that the sale manager and its representatives act only as a medium between the buyer and the seller. They are not responsible in any way for the failure on the part of the buyer and seller to live up to their obligations or for the truth of any warranties or representation, express or implied. Neither does the sale manager assume any financial obligations to collect or enforce collection of monies between parties. Any legal action, that may in exceptional cases be taken, must be between the buyer and the seller. This catalog has been prepared by the sale Manager from pedigrees and information supplied by sources deemed reliable, however, the sale manager will in no way guarantee the pedigree, percentages of the animals selling, or data included in this catalog. Any exceptions taken are between the buyer and the seller.

CONTRACT: The above terms and conditions of sale shall constitute a contract between the buyer and seller of each animal and shall be equally binding upon both. Each sale or resale of an animal constitutes a separate transaction.

PHONE BIDS: Telephone bids will be taken by the sale manager. Kyle Gilchrist's cell number is (641) 919-1077.
